Objectives of the Preparation Phase

“Everything is ready for Pilot”

What does “Everything” mean ?

EUCAR Annual Conference, 7 November 2018

“Everything”

- The **AD functions** to be evaluated in L3 Pilot are **described** in sufficient details
- The AD functions are **adapted** and **implemented** in the test cars
- The vehicles and their AD functions are **pre-tested**
- **Legal issues** (compliance to laws and regulations, including data privacy and insurance) and **cyber protection** are considered

“Everything”

- The **AD functions** to be evaluated in L3 Pilot are **described** in sufficient details
- The AD functions are **adapted** and **implemented** in the test cars
- The vehicles and their AD functions are **pre-tested**
- **Legal issues** (compliance to laws and regulations, including data privacy and insurance) and **cyber protection** are considered

4 macro Use Cases for Passenger Cars

Traffic Jam

Motorway

Parking

Urban

1,000 drivers 100 cars 10 European countries Piloting Automated Driving on European Roads.

AD Functions are described in sufficient details

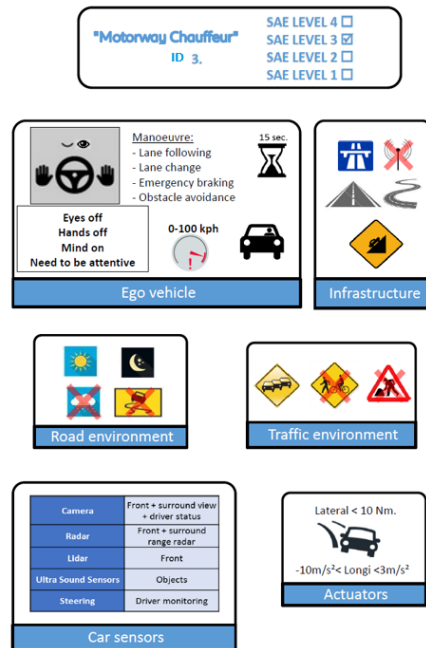

Table 3.1: L3Pilot functions by SAE automated driving level.

| | | Parking | Motorway | Traffic Jam | Urban |
|----|----|---------|----------|-------------|---------|
| ID | 1 | | | Level 3 | |
| ID | 2 | | Level 4 | | |

Summary SP status: Preparation of Fleet – Real-World

“Everything”

- The **AD functions** to be evaluated in L3 Pilot are **described** in sufficient details
- The AD functions are **adapted** and **implemented** in the test cars
- The vehicles and their AD functions are **pre-tested**
- **Legal issues** (compliance to laws and regulations, including data privacy and insurance) and **cyber protection** are considered

A scene from the movie 'The Planet of the Apes' showing a chimpanzee standing on a rocky ledge at sunset, with a large black rectangular object in the foreground.

Conclusion
What are the Challenges?

What are the Challenges?

- **Technical Challenges**

- Technical readiness and safety of prototypes
- Test the whole chain of acquisition of data

- **Methodological Challenges**

- Test the questionnaires for User Acceptance Analysis

What are the Challenges?

- **Compliance Challenges**

- Regulation for AD experiments
- Cyber Protection Standards
- GDPR

- **Time Challenges**

- Be ready for March 2019 with at least one car

Let's roll.

Optimistically that the fruits will hold the promises of the flowers

Thank you for your kind attention.
